Group No: 01

Department: COMPUTER SCIENCE

Project Title: Metro Cab System using IP Radio

Supervisor / Co-supervisor: Abdul Rahman

Abstract:

~~The general purpose of our project is CAB management which has three different modules. Admin module, Driver module and Customer Module. Admin has different task included manage and maintain records, manage fares, booking confirmation and completion etc. The driver's task is to update the admin for successful trip and availability. The Customer has to book the CAB for Passenger or luggage. The communication medium is IP Radio which interconnects the driver and admin.~~

Registration No.	Name	Father's Name	E-mail Address	Contact No.
10B-010-BS	Muhammad Umer	Mukhtar Ahmad	umeranjum91@hotmail.com	03213343402
10B-032-BS	Waqas Pasha	Kamal Pasha	waqaspasha91@gmail.com	03333796001
10B-034-BS	Abdul Rafay	Waqar Hussain	mrabdulrafay@outlook.com	03472739279

Learning Outcomes	Android learning
Technology Involved	Android
Industry Standards and Requirements	Minimum requirement for Android gingerbread 2.3
Expected Deliverables	Android App for Cab Management and Booking
